

SERVCO

Logo & Brand Guidelines

Our Logo

The SERVCO corporate logotype is our primary signature mark. This is to be used for all applications including print, web and advertising.

Our SERVCO **MAKAI** blue (A) is the preferred logo unless production or technical limitations require another version of the mark be used.

A white or black version may be used if necessary. When white is used, follow the reversed color priority order, (B,C, D).

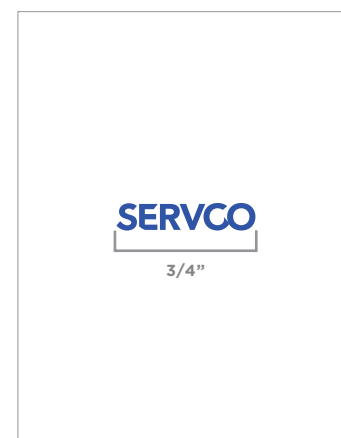

REQUIRED ISOLATION AREA

The minimum permissible space around the signature is 1/2 of the full height of the SERVCO logotype or more on all sides.

Do not place any other design elements such as photographs, illustrations, figures, lines, or text within this isolation area. This includes the edge of the paper or display area to the logo.

MINIMUM SIZE

The logo should never be reproduced smaller than 3/4" wide, measured from "S" to the right side of "O" in SERVCO.

Misuse of Our Logo

The SERVCO corporate logo is the foundation of our identity. It is a representation and expression of the company's personality and values. Quality, reliability and commitment is a part of our structure and protecting the integrity of the logo through proper use is a high priority.

- A - DO NOT use any other colors in place of the SERVCO "Makai" blue, white or black
- B - DO NOT skew or distort
- C - DO NOT scale unproportionately
- D - DO NOT add effects such as drop-shadows, embossing, etc.
- E - DO NOT use with outline
- F - DO NOT rotate, change the path to follow a curve or shape
- G - DO NOT use any smaller than the minimum size of 3/4 inch in width
- H - DO NOT place on colors other than one of the approved from this guide
- I - DO NOT place on backgrounds that are cluttered with little contrast
- J - DO NOT use in a read-through
- K - DO NOT reproduce in other graphic icons or logos

Typography

The SERVCO corporate typeface is **Gotham**. A clean humanistic sans-serif typeface family with a wide variety of options. It's a perfect match to communicate our message, in a voice that represents our company in a clear concise manner.

USING TYPE EFFECTIVELY

Please adhere closely to these guidelines when using the **Gotham** typeface.

DO use only approved colors from this guide
DO use a combination of upper and lowercase
DO avoid use of all uppercase
DO avoid use of small caps

DO NOT use special effects to emphasize type
DO NOT place type in a hard-to-read format
DO NOT distort the typefaces

Gotham is our
corporate typeface.

**Gotham Bold is ideal for headlines or subheads.
It also works well for large format use such as signage.**

Gotham Book works well across all media and applications.
It's effective when used with heavy blocks of text or body copy.

Gotham Light is appropriate when contrast is needed against
bold surroundings. It's clean and elegant when used small or big.

***Gotham Bold Italic**, Gotham Book Italic, Gotham Light Italic, are
used when referring to something specific, such as a place or name.*

Color

PRIMARY

The primary color palette was developed to be used on more permanent corporate iterations of the SERVCO brand such as stationery or business cards.

MAKAI (by the ocean). It's the color we consider to be our foundation. It's where we began and the place we call home, Hawaii. The ocean also represents the bridge that connects us to our locations across the globe.

NALU (wave). It's the color we use to complement. The contrast brings a refreshing feel. It reminds us to consistently move toward our goals.

PAHOEHOE (smooth lava flow). When cooled and formed it is the preferred foundation to walk on. It's bold and strong. A little of this neutral color goes a long way.

SECONDARY

The secondary color palette was developed to be used in marketing materials or ads. Subtle hints of these can be added to complement the primary color palette when necessary.

LAVA. Ongoing growth.

MAKANI (wind). Cool and calm flow.

MEAKANU (plant). Sprouting, full of life.

Use the color size guide on the right to balance primary and secondary colors in Servco-branded materials.

MAKAI
PMS 286 U
CMYK 90/75/0/0
RGB 49/85/166
#3155a6

NALU
PMS 299 U
CMYK 77/30/0/0
RGB 28/146/209
#00a0dc

PAHOEHOE
PMS Cool Gray 10 U
CMYK 50/43/40/5
RGB 134/132/135
#65646a

LAVA
PMS 137 U
CMYK 0/47/84/0
RGB 248/154/64
#ffa400

MAKANI
PMS 326 U
CMYK 79/9/43/0
RGB 0/169/161
#00a0aa

MEAKANU
PMS 361 U
CMYK 73/9/94/0
RGB 76/170/79

Brand Elements

The **NALU GRAPHIC** is a representation of consistency and flow. This element can be used to bring balance to layouts and play a supporting role in brand executions.

The fade into color is intended to bring a subtle approach to its use and allow for it to complement its surroundings as a background splash.

COLOR

DO use only NALU Blue to Makai Blue

DO NOT use patterns or other fill in lieu of the approved color

EXCEPTION: For media in which color is not an option, use the restricted-use fade to black version

USAGE

DO use the Nalu Graphic alone with a lot of negative space

DO NOT alter the shape of the Nalu Graphic from the approved form as shown

DO NOT use the Nalu Graphic to occupy more than 20% of the total layout area

DO NOT overlap the Nalu Graphic more than 5% when using it with text or other elements

HORIZONTAL FADE
NALU Blue > MAKAI Blue

VERTICAL FADE
NALU Blue > MAKAI Blue

HORIZONTAL FADE
Gray > Black (Restricted-Use)

VERTICAL FADE
Gray > Black (Restricted-Use)

Examples of Use

- 1 **Simple concept/messaging** through clean compelling graphics, can carry the SERVCO brand in a sophisticated, yet approachable way.
- 2 **Less IS more.** Crafting the copy to a minimum will actually say a lot. Filling the page is tempting, but negative space will allow your message to be read.
- 3 **Highlights of NALU blue** help to bring an inviting cool to the visual tone.
- 4 **Secondary color** used strategically following the color balance scale, helps to complement our **MAKAI** brand blue.
- 5 The use of **NALU GRAPHIC** helps to add brand presence to the page. This is the approved way to use the **HORIZONTAL FADE** version.
- 6 Dominant **primary color** use of **MAKAI** blue always helps to identify the brand of SERVCO.
- 7 **Proper use** of the SERVCO white logo. Effective size ratio in its surroundings and approved minimum isolation area.

Examples of Use

- 1 **Less IS more.** Crafting the copy to a minimum will actually say a lot. Filling the page is tempting, but negative space will allow your message to be read.
- 2 Dominant **primary color** use of **MAKAI** blue always helps to identify the brand of SERVCO.
- 3 **Secondary colors** used strategically following the color balance scale, helps to complement our **MAKAI** brand blue.
- 4 The use of **NALU GRAPHIC** helps to add brand presence to the page. It can be used on multiple panels to bring a connected flow to the overall design.
- 5 **Proper use** of the SERVCO white logo. Effective size ratio in its surroundings and approved minimum isolation area.
